

MULTITAPS

NARROW BODY HOUSING

OMT1200M-S
2-Way Multitap
Narrow Body

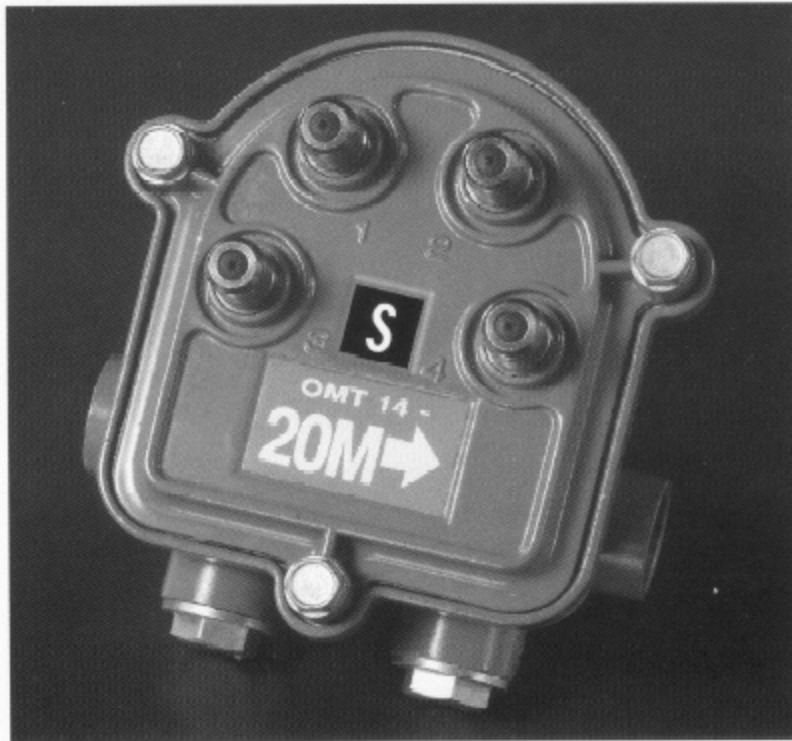

The Multimedia Narrow Body Multitaps incorporate all of the features of the Widebody Series in a smaller housing for the most economical multitap available on the market today. With a small profile, the OMT series multitaps can fit into a four inch pedestal.

High quality make-before-break AC/RF bypass for uninterrupted signal and power when the baseplate is removed.
