Your First Thought

Tested in excess of 100mph winds

Commdeck is a communications mounting system to be used on new and existing homes. It provides superior strength without damaging the roof. It can be used to pre-wire your home for the future, or to complete dish or antenna installation today. Properly installed, the Commdeck will provide a weather-tight mounting platform.

Commdeck benefits: homeowners, landlords/tenants, builders/roofers, and satellite installers.

- Powder coated finish
- Weather tight seamless construction
- Stamped 18 gauge galvanized steel
- Comes with complete hardware package and installation instructions

Available Colors:
Black, Brown, & Weathered Wood
